If you run a Daycare or Child Care facility, you know that the clutter that even a small number of children can leave behind can be immense. The cleanliness the facility, windows, carpets and floors all impact your customers' perception of your child care.

A sparkling, well-maintained facility is an invitation in itself, pleasant to visit and comfortable to work in.

Service Max will be there for you. We work with you to create a service plan that fits your needs and your budget.

Service Max LLC

The cleanliness of facility impacts the perception of your child care.

Let us help keep you looking your very best!

Your carpeting and flooring play a major role in the overall image of your facility.
